

DelVal[®] Series 84 Mounting Kits

Engineered Brackets and Coupling

DelTech Controls is pleased to introduce an engineered, close-mounting bracket and coupling system for automating the DelVal Series F (Floating) and Series DC / DS (Threaded) Ball Valves and other manufacturers' ball valves. All brackets and couplings are supplied in a kit consisting of a bracket, coupling, o-rings and mounting hardware. Brackets have a three-coat, offshore protective coating system consisting of a zinc base coat applied to the sandblasted bracket. It is then prepared with a special tie coat and finished and protected with a light gray polyurethane top coat.
